A WARM

# Hello

IN THE WORLD OF

# GÖTZ DOLLS 2020

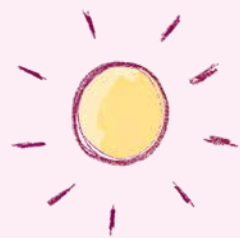

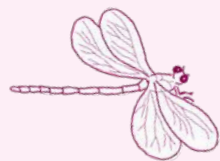

Creative play endows children with a world they can experience in active role-play only. Even more so they can assimilate all the impressions they have daily. The neutral look of our Götz girls and babies allows the child to interpret any emotion, like joy, sorrow or affection - they can feel understood.

Deliberately abstaining from electronic functions, fantasy can unfold boundlessly. Redundant amenities are reduced, the child can concentrate on play completely. Cognitive abilities such as learning, thinking, empathizing or memory are stimulated, as well as creativity and fine motor skills, thanks to endless variation and detail. Motor skills are also promoted through playing with the dolls.

# LET YOUR Crown sparkle!

For you and your doll! Post your handcraft talents on instagram!  
**#goetz4you**

### You need:

- scissors
- cardboard
- colourful glitter
- glue
- cutting mat

**1.** Print the crown below onto the cardboard. Cut it out. If you need a hand, your parents surely won't mind helping.

**2.** Put the glue onto one side of the cut out crowns - distribute carefully to make sure the glitter stays on.

**3.** Sprinkle the glitter onto the crown - you can repeat this. Work on a cutting mat to reuse the glitter falling aside.

## IN ENGLISH please?

English is not English, there are many words where two English words can be used to translate one German one. Why is that? It depends on the country the English is spoken. So autumn will be used for "Herbst" in Great Britain as well as Australia and in the United States fall will be used. Spring is used to translate "Frühjahr" and summer to translate "Sommer" in Great Britain, Australia as well as the United States. Which season is your favorite one?

# Floral wreath

## EASY TO MAKE!

**Tip**

Separate the stalk of the flower underneath the blossom just to achieve a needle eye. Afterwards you pull through the needle eye the stalk of the following flower - repeat until it can fit around your head. Maybe your doll wants such a wonderful wreath as well.

# TO THE Parents

## Our dolls are sustainable!

Every Götz doll can be **repaired**. Is there a blemish, sickness or injury of any kind, our **doll hospital** loves to take care of. Please add to doll patient our admission form filled in. This is important, so we can evaluate and solve the problem best possible.

There will be no boredom with our Götz dolls. They are **extremely changeable**, because they are not created for a special theme. Our vast choice of accessories ensures variety.

Thanks to our **high quality standards**, our Götz dolls are **very durable**. They can be passed on and be a companion through the next generations childhood.

## Development of your child through play

Creative play is a very important for children, they increase with ease their **motor skills, creativity and selfesteem**.

Our Götz dolls are created for exactly that. Due to the various play possibilities they leave your child enough **freedom for their own initiative**, ideas and rules. There is the right doll for every agegroup.

Did you know that children achieve cognitive and social competence through roleplay - as if games with dolls - from their 3rd year on.

Children play in their 1st 6 years **approximately 15.000 hours** (7-8 hours a day) to be able to develop. With this fact in mind we create our world of play! Buttons, buttonholes, shoestrings or ribbons allow **practice when playing** and enhance development with ease.

**Albert Einstein said:**  
„Play is the highest form of research“

*Little hint: just watch your child when playing and you will be amazed what you learn about your little darling!*
