

Puppenmanufaktur

FRIENDLY *Pumpkin-Ghost*

You need:

- pumpkin
- pointed, sharp knife
- spoon
- pencil

1

With your pencil, draw a round circle on the bottom of your pumpkin. Now cut out this circle with the knife. Ask for help if needed.

2

With the spoon scratch the pulp and the seed from the pumpkin.

Tip: Clean the seeds and let them dry. So you can use them for other tinker fun.

3

Paint the face with your pen onto the pumpkin and cut along the drawn lines. If you need help do not hesitate to ask. Finished - you can place it on your doorstep or onto a branch. Tada your friendly pumpkin face is done!
