STYLISH

Pumpkin-Seed-Necklace

You need:

- pumpkin seeds
- acrylic paint
- needle
- thread

1

First paint one side of your seeds with your favorite color. Let it dry, then paint the other side.

2

After the color is dry, you can thread the seeds onto a string: Thread the needle with the string. Now gently drill a hole in your seed with the needle and pull it over it onto your thread. Ask for help if needed! Repeat this as often as you like. When you have enough seeds on your string, just knot the edges of the the thread together and your stylish pumpkin-seed-necklace is ready to be worn!
