*To create everything  
you will need  
1/2 a day*

Sparkling unicorn .....	3
Sparkling unicorn invitation .....	5
Straws and cups with unicorns .....	6
Tins with unicorns .....	7
Pennant to create a garland .....	8
Lovely tassels for garlands and decoration .....	10
Potato printing for serviettes .....	11
Party hat with magical unicorns .....	13
Unicorn cake .....	15

## OUR TIP

### *Things to keep in mind for your invitation:*

1. Who is hosting the party? - List your contact details.
2. What is celebrated? A birthday or just for fun?
3. When and where will the party be - do announce date, time and location.
4. Is there a dress code or theme? Let your guests know.
5. Should your guests bring something like food or drinks? Possibly their own doll to play together? Name this in your invitation.
6. Do you have specific wishes or is there a piggy bank guests can donate to?  
**TIP:** Our **online shop** offers several vouchers!
7. Is it a surprise party? Put down the organizer's contact details to keep it a surprise!

*enjoy your party!*

# List of materials

for all craft instructions

## definitely needed:

- scissors
- ruler
- crayons
- paint brush
- decorative tape
- glue (liquid)
- hot melt gun
- cutting mat
- kitchen knife
- cutter

## needed for different creations:

- printed instructions
  - 1 large sheet of strong cardboard (white)
  - various sheets of cardboard
    - choose favourite colours
  - glitter in various colours
  - acrylic paint/finger paint
  - elastic band
  - decorative gems
  - colourful tissue paper
  - folded, colourful cardboards
  - 3-5 tins
  - straws
  - paper cups
  - stiff serviettes
  - string (at least 2m)
- 
- birthday cake
  - icing sugar
  - small sieve

### OUR TIP

#### Severity

Indicating the difficulty of your handicraft work – and if you will need a hand:

- !!!! easy
- !!!! medium
- !!!! difficult
- !!!! will need a hand from mum or dad

for additional creative ideas!

OUR TIP

# Sparkling unicorn

## You need:

scissors • cardboard • colourful glitter • glue • cutting mat

---

## How it works:

1. Print the pattern below onto the cardboard. Cut it out – if you need a hand, your parents surely won't mind helping.
2. Spread the glue onto one side of the cut out unicorn – distribute carefully to make sure the glitter stays on.
3. Sprinkle the glitter onto the unicorn – you can repeat this step. Work on a cutting mat to reuse the glitter falling aside.

# Sparkling invitations

birthday invite

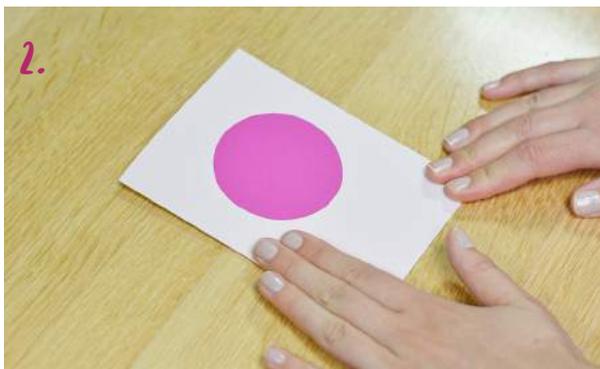

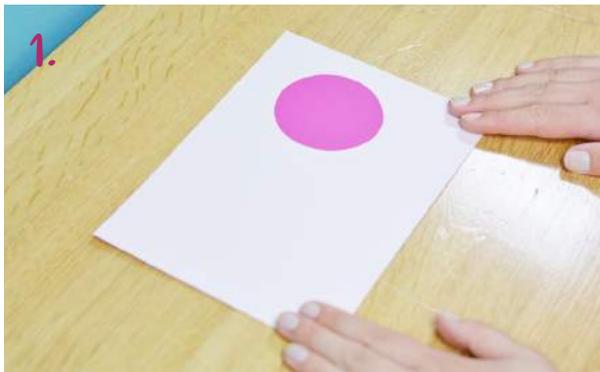

## You need:

cardboard A5 (148 x 210mm) • sparkling unicorn • glue • decoration gems

## How it works:

After having finished the sparkling unicorns, there are various options to use them for decorating.

1. No party without an amazing invite announcing when, where and what time your unicorn party will happen. Fold your sheet one time down the centre.
2. Now ready to adorn your invitation with the incredible unicorns, placed on the front of your folded sheet. Spread the glue carefully on the entire back of the sparkling unicorn.
3. To your liking you can adorn your card with additional glitter gems.

# Straws and cups

with unicorns

## You need:

colourful straws • paper cups • sparkling unicorns • hot melt gun

## How it works:

Having finished your sparkling unicorns – you have various options to use them as decoration.

1. A splendid decoration for your paper cups. To attach them securely, use the hot melt gun. Carefully, or with help of an adult, distribute the glue onto the back of your glitter horse.

**CAUTION** This can be very hot – ask for a helping hand.

2. If you like, you can also decorate the straws. Attach one sparkling unicorn on the upper end of your straws.

# Tins with unicorns

for throwing games

## You need:

3-5 empty tins • decorative sticky tape • sparkling unicorns • hot melt gun

## How it works:

Another option to use your unicorns – amazing tins for throwing games!

1. Decorate your clean tins with some sticky tape – be creative the wilder the better!
2. For the next step you will need a hand from an adult. Carefully glue the sparkling unicorn onto the tins with your hot melt gun.  
**CAUTION** Hot melt gun and glue will get very hot!
3. See how wonderful they are! This is a favourite game on any fairground. Stack your tins in a pyramid shape. With a ball (tennis ball size) try to knock over as many as possible. Distance from the pyramid at least 2m.

## OUR TIP

It is fun to handcraft the tins together with your guests when partying!

# Garland - pennants

colourful decoration

## You need:

crayons • stiff cardboard in your favourite colours • scissors • string to thread together

## How it works:

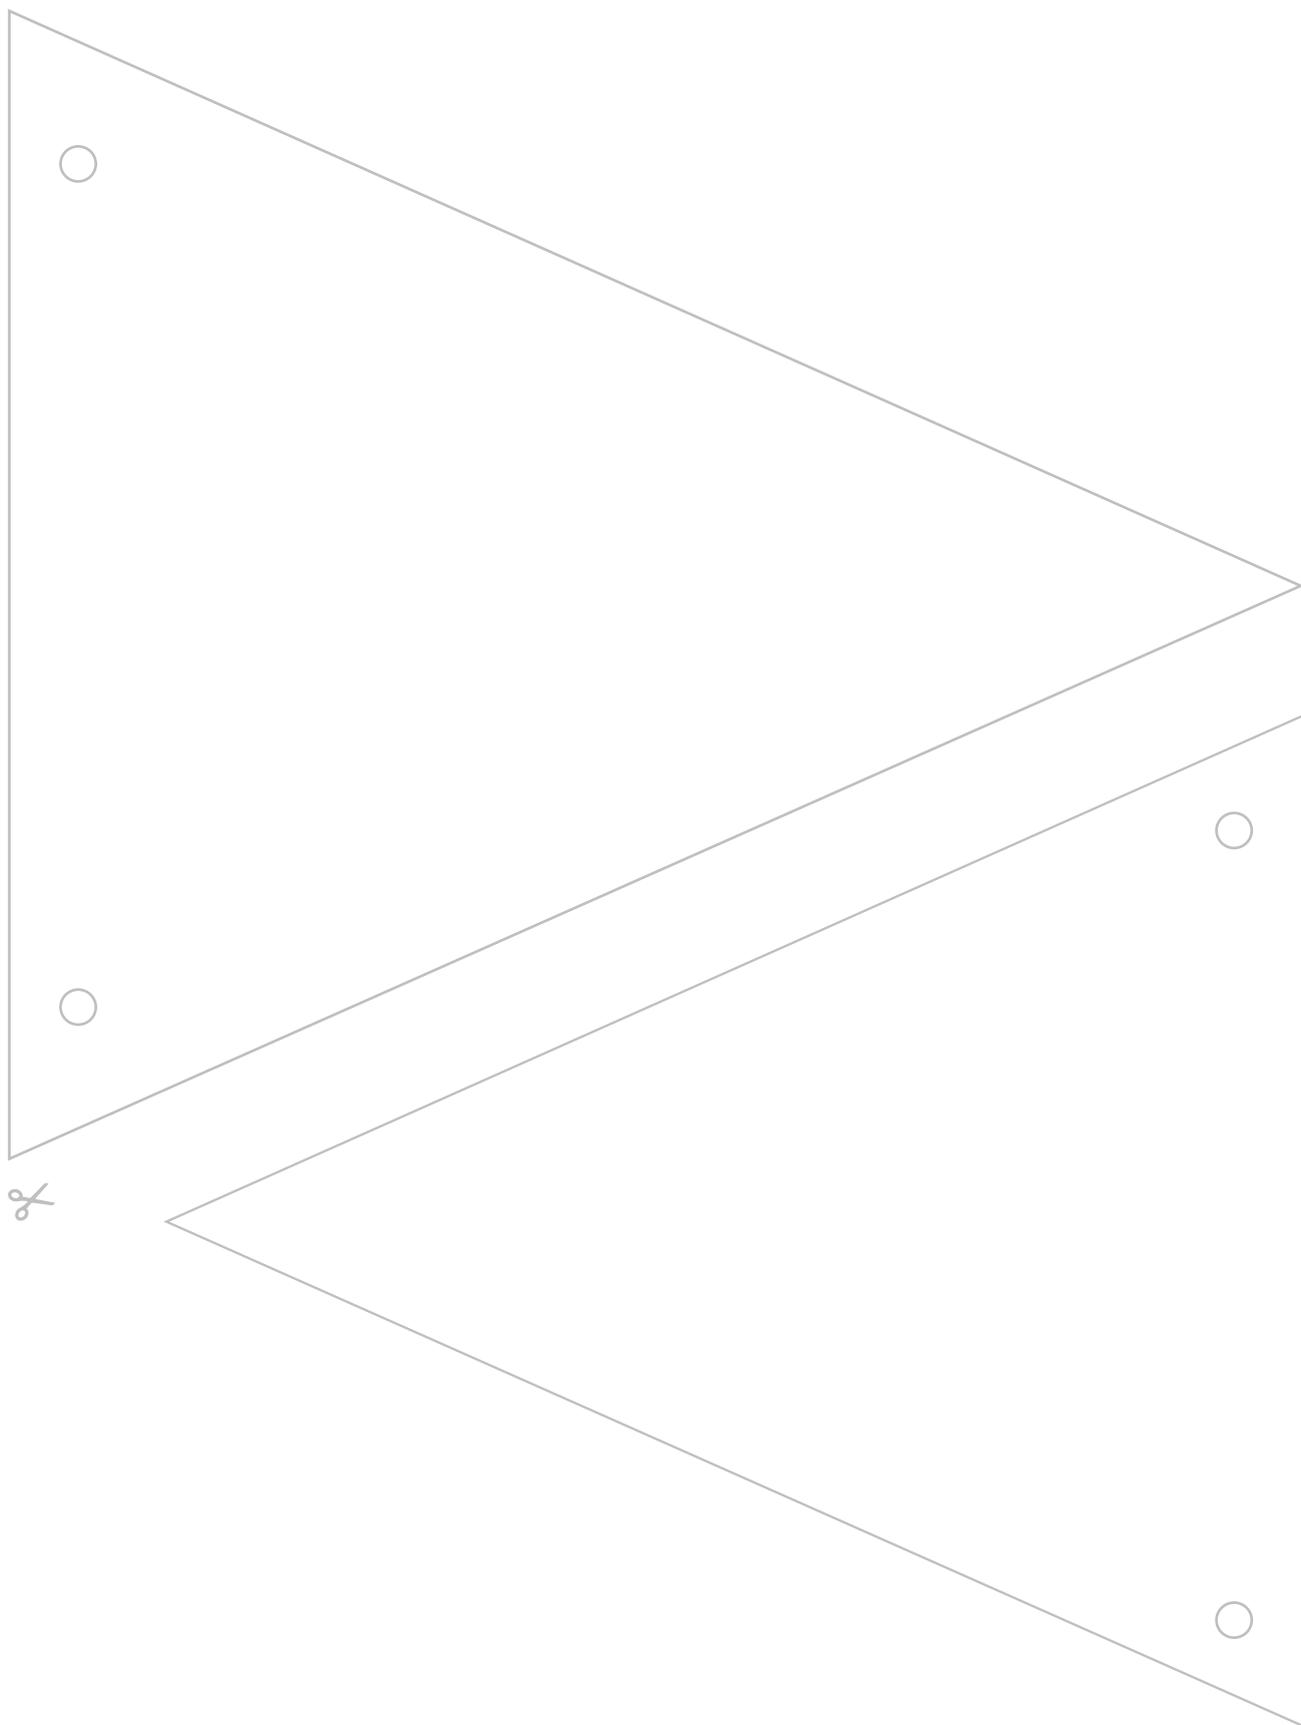

1. Carefully cut out the pattern below – your parents or grandparents will love to give you a hand. To copy as many pennants as needed, just trace the shape with a crayon onto your cardboard. The longer you wish your garland to be, the more pennants you'll need.
2. Now you can cut the copied pennants out of your cardboard sheet – asking for help is absolutely fine. Cut out the holes shown on the pattern. It is easier to use a hole punch.
3. Now you can thread together the pennants (see pictures below). Be creative and decorate them with your sparkling unicorns, glitter gems or make glitter pennants – with glue spread onto them and the glitter sprinkled on.

If you wish to make your garland even more amazing, then see below and combine pennants with tassels.

OUR TIP

# Lovely tassels

for garlands & decoration

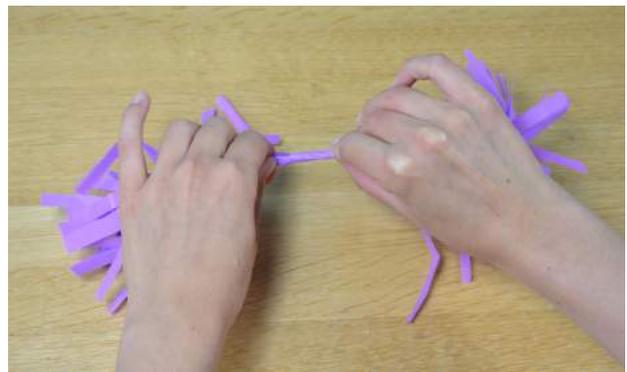

## You need:

colourful tissue paper • cutter • ruler • cutting mat • string to thread together

## How it works:

1. Fold the tissue paper once down the center. For the next step you're allowed to ask for help. Cut stripes with your cutter, always at the same distance.  
**CAUTION** Stop cutting approximately 5cm before you reach the fold.
2. Unfold your paper carefully. Now roll it into a thin roll.
3. Twist the middle part of the roll and bend it down right center. Now twist the two edges together, creating a little hole on the top. This helps to thread together your tassels to create a most amazing garland.

# Potato printing

## for serviettes

### !!!!

#### You need:

stiff serviettes • 1 potato • kitchen knife • acrylic paint • paint brush

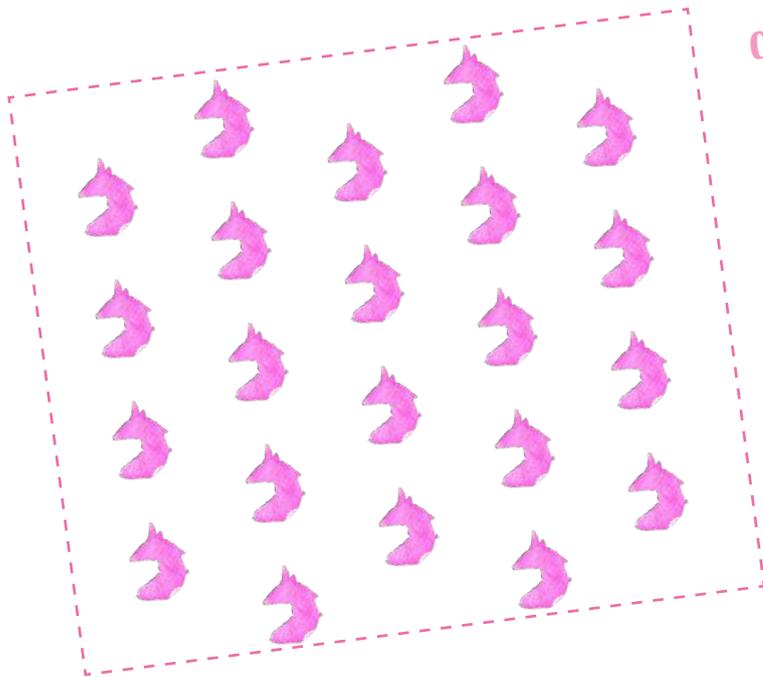

#### How it Works:

1. Cut out the pattern below. Choose your favourite one. Ask for a hand now. Cut the potato in two halves.
3. Colour your crown stamp with a brush, covering it completely.

2. Place your cut out pattern onto the potato and cut around your chosen shape. The potato is your stamp, so remove the sides of the potato, which do not belong to the shape. Now your shape should stick out of the potato half, just like a stamp.
4. Can't wait to see your first print? Press the coloured potato onto your serviette. Repeat as often as you wish on different positions on your serviette to create a lovely pattern.

Create the most wonderful patterns with your unicorn stamps - they can also be used to decorate penannits or invites

# Party hat

## with magical unicorns

!!!!

### You need:

cardboard • elastic band • scissors • sparkling unicorns • hot melt gun • adhesive tape

### Part 1

### How it works:

1. Draw a large circle onto your cardboard with your preferred colour. Your circle should have approximately a diameter of 20cm. Cut along your drawn line.  
Tip: Put a large bowl onto your cardboard and draw around it - it's a lot faster this way.

2. Now cut along the centre line to the centre of your circle. Someone will enjoy helping you to find the centre. It is ok to ask for help!

3. Now role your circle into the shape of a cone. Finish when having achieved a pretty point for your hat.

4. Following, glue the edge onto the cardboard underneath to fix the shape of your hat.

# Party hat

with magical unicorns

!!!!

## Part 2

### How it works:

5. For the next step you will need the help of an adult. Carefully glue your sparkling unicorn onto your hat. Use the hot melt gun to ensure your unicorn is securely fixed.

**CAUTION** Hot melt guns get extremely hot!

6. Last but not least tie the elastic band onto the hat. Effortless it is, when having punched holes with your hole punch before.

7. Excellent! See how your hat will look. Be creative and make them in different colours and additional adornments like glitter or gems.

### OUR TIP

Make the doll guests hats as well. Simply make your circle with a 10cm diameter and follow the instructions above. What a fab party this will be!

# Unicorn cake

magical decoration

!!!!

## You need:

stiff paper • scissors • icing sugar • small sieve • yummy birthday cake

## How it works:

1. Cut out the pattern below.  
Tip: For the tricky parts use nail scissors or ask for help.
2. Place the cut out pattern onto your cake and put some icing sugar into your small sieve.
3. Sieve the sugar onto the crown shaped opening of your pattern until it is completely covered.
4. Carefully remove the pattern from the cake. Be careful to not smudge the amazing unicorn cake.

The cocktail you can find on [goetz-puppen.de/painting&puzzles](http://goetz-puppen.de/painting&puzzles) will be an amazing companion to your cake!

# Mini-Piñata

made from papercups

!!!!

## you need:

paper cups • tissuepaper • stiff cardboard • glue • cutting mat • needle or toothpick • small sweeties

.....

## how it works:

1. Onto your stiff cardboard draw around the opening of your paper cup. Draw another circle in 1cm distance around your circle gained by drawing around the cup opening. Cut along this outer line and cut little spikes ending in length at your inner line. Fold your little spikes along your inner circle line and put your circle aside.
2. Cut your satin paper in 5cm wide paper stripes, fold lengthwise and cut little fringes along the open side of your folded tissue paper. Turn your papercup and glue the stripes around the cup. The fringed side directed towards the cup opening. Glue stripe by stripe around your cup until you reached the bottom of your cup. Push a little hole into the center of your cup's bottom using your needle or toothpick. Now thread a ribbon through this created little hole. If you need help ask mum, dad or grandparents whoever is near. The inner edge of your ribbon knot carefully, to fix the cup onto the ribbon thoroughly.
3. Turn your cup with the opening upwards and now you can fill you little pinata with sweets to your liking and fitting the cup. Take the circle with the spikes, which you put aside earlier, and glue it into the opening of your cup with the spikes showing upward to ease the pulling when opening. Let the glue dry - super your pinata is finished - well done!

**our tip:** your pinata can vary in size depending on the cup size you use. If your cups are a little small you can create various pinatas and tie them together. You will get a pinata bunch.
