

Tinker FUN Walnut Animals

AS A GIFT, TO SHARE OR DECORATE

1

Let your parents crack the nut to get real halves. Paint them white to have bright colors when decorated. Oh by the way - you do not have walnuts - stones will do as well.

2

Then color your whitened shells or stones with the chosen color of your animal. Hedgehogs are brown, rabbits can be pink or the frog in green. Make sure the color is dried of.

3

Now it is time for details. Add eyes patterns and face. There is no limitation to your creativity.
