Puppenmanufaktur

Puppenmanufaktur

Why Götz?

Because we only want the best for our children. From the beginning, as a family manufacturer, we have been enthusiastic about putting a smile on our children's faces and encouraging creative play. As a family, we share this passion with more and more families in Germany and the world.

We want to develop dolls and accessories that encourage and challenge children. We rely on the highest quality and safety and combine tradition with innovation. Our responsibility is to ensure that the best for our children is always as sustainable as possible. Our in-house repairs and care tips are just small parts of this and are intended to enable long-lasting fun.

A family for families. That's why we play, style and give gifts with GÖTZ and have been doing so for over 70 years.

**Yours, Anke Götz-Beyer,
owner and CEO**

Highest manufacturing
quality

We only use high-quality hair with a natural look. It is durable and suitable for washing, combing and blow-drying

Our doll fashion is detailed and can be washed and ironed

We only use high quality eyes, hand inserted or painted. Our product lines include fixed eyes, sleep eyes and painted eyes.

Thanks to high quality standards and careful workmanship, Götz manufactory dolls are particularly durable.

All dolls and doll fashion are safe for children. They are phthalate-free and AZO-free

Creative play

Why is creative play so important?

It promotes your child's cognitive, social and emotional development. Our dolls are specially designed without electronics and neutral facial expressions and are an ideal basis for...

Imagination & Creativity

Dolls without electronics encourage children to use their own imagination. Neutral facial expressions allow the child to shape their own emotions and reactions and promote creative thinking.

Empathy & emotional intelligence

By playing without predefined emotions, children learn to recognize emotions and develop empathy.

Unplugged - playing

Electronics-free dolls promote a playful, unplugged experience that keeps kids away from screens and unleashing their creativity in the real world. They can design their dolls according to their ideas and thus reflect the diversity of the real world.

Give meaningfully

What does meaningful giving mean?

The motto is to give meaningfully and sustainably.

Wish lists are a good help for all givers. Think together with the little ones about what would be a great gift and what is right now.

Create play worlds through meaningful gifts.

It is important to us that children have long-lasting and creative fun with our products. Grandma and grandpa, family and friends can find suitable accessories for every doll with us, so Götz creates a play world at home that makes sense and brings great joy.

Götz tip:

Let your children choose for themselves and express their wishes with the different stickers in the Kids Magazine!

Sustainability

Vegan & Durable

All of our dolls are VEGAN & durable. Through high-quality workmanship, we promote longevity, which contributes to sustainability. Götz dolls become play companions for many years and bring joy not only to your children, but perhaps also to your grandchildren!

Organic & natural rubber

Bringing high-quality and natural materials into children's rooms around the world is important to us. For these reasons, we are constantly working on expanding the range of organic toys. For us, organic dolls and organic accessories are primarily characterized by the material. For example, all of our Natural Choice doll accessories are made from organic cotton and excellent organic quality. Our organic dolls are made from 100% natural rubber, a sustainable organic raw material.

A young girl with blonde hair is smiling and holding a baby doll. The doll has blonde hair in a bun and is wearing a white headband and floral-patterned pants. The girl is wearing a light-colored, vertically striped shirt. The background is a soft, out-of-focus light color.

More than just a toy

Children play around 15,000 hours (7-8 hours per day) in the first 6 years of life...

... let's make this time together and supportive

Fine motor skills:

Dressing, styling and caring for dolls requires fine motor skills and hand-eye coordination, which trains children's motor skills.

Communication skills:

Puppet shows require verbal and non-verbal communication. Children practice expressing themselves, listening and understanding non-verbal signals. They invent stories and dialogues with their doll and thus develop language skills.

Emotional development:

Children can express and recognize emotions through playing with dolls. They learn to develop empathy by interpreting and responding to their dolls' feelings. By imitating everyday situations, they learn how to react to them.

Cognitive development:

Inventing stories and role-playing with puppets promotes cognitive development. Children use their imagination, plan courses of action and develop problem-solving skills.

Doll Clinic & Case

The Götz Doll Clinic!

Dolls are playmates throughout childhood and can also be passed on to grandchildren. We want our dolls to be played with! To make this possible, Götz offers a doll clinic with Sister Ella. Götz dolls of the highest quality can be sent in and repaired here. This service makes dolls playable for every child across generations and a part of every child's room. As a family, the quality and longevity of the dolls are important to us.

Doll care made easy!

Caring for and bathing dolls is not only fun, it also gives your child an important message: If you take good care of them, toys don't have to be thrown away and bought new. Find the right care for dolls and doll accessories

Götz Exclusive:

Soft body dolls can be machine washed & tumble dried.

Baby Pure

Our Baby Pure is specially tailored to the little ones. During development, attention was paid to safety, durability and ecology. Therefore, dolls from this series only have a face shell and no fixed head. This makes the doll nice and light and cuddly. THE PERFECT FIRST GÖTZ DOLL

Our Muffins

Our muffins are available with and without hair in 33cm muffins and 42cm Maxy muffins. Many are suitable from 18 months and have a particularly soft body.

- sleep eyes
- machine washable & suitable for tumble drying

Precious Day Girl

Her fabric doll body is filled with cotton wool and yet is so firm that she can stand easily. Our Precious Day Girls are fully articulated and poseable. The special thing is that she is also available as a to dress doll for even more creativity.

- sleep eyes
- washable hair
- machine washable & suitable for tumble drying
- soft body doll

A family for families

A family for families!

In the Götz doll factory, tradition and innovation come together in a wonderful symbiosis.

Just as Franz Götz once brought his visions of doll making to life, today the third generation is now using their own creative energy to design and develop dolls that invite you to play with, style and give as gifts and thus continue to write the captivating story of the Götz doll factory .

With a refreshing view of the future and yet deeply rooted in family values, we passionately pursue the goal of delighting families with our products. Each doll is designed with dedication and attention to detail to give children unforgettable play and creative moments.

But the true essence of Götz dolls lies not only in their aesthetic value and creative play possibilities, but above all in the meaning they have for every family. As loyal childhood companions, the dolls help create precious memories and connect generations.
