YOUR OWN

rainbow

FOR YOUR ROOM

4

1 Simply cut a paperplate in the middle and cut out a semi-circle.

2 Color the paperplate to a rainbow. We chose the original rainbow shades, be free and choose colors to you liking.

3 Shape cotton wool to little clouds and glue those onto the rainbowplate. Cut crepe paper into streaks and glue the upper edges onto the back of your paperplate finish to have them hanging down. Push two holes on the upper edge of your plate and pull a ribbon through for a hanging. Tada your rainbow room decoration is finished.
